<sup>1</sup> Please note that NLRB Rules and Regulations Section 102.2(c) states that "[r]equests for extensions of time filed within three days of the due date must be grounded upon circumstances not reasonably foreseeable in advance." The due date for exceptions is September 13, 2018, and the request for an extension of time was filed on September 12, 2018, which is only one business day prior to the document's due date. Respondent's counsel explained that the Respondent's headquarters are located close to the South Carolina coast, and that the individuals at Respondent who need to review documentation are under a state of emergency due to Hurricane Florence, with evacuations underway. Given these circumstances (and Respondent counsel's representation that counsel for the General Counsel has consented to this request), we will allow the extension of time.
